MUSEUM GEL

Accidents happen, but when they happen to valuable vases, figurines or pottery, it can hurt emotionally and financially. So do what museums and collectors do: press small "balls" of temporary securing adhesive to the object's bottom! Gel and putty are **removable and reusable**, to keep important objects secure and upright, and picture frames from shifting. 4-fl.-oz. **clear gel** provides an invisible bond (enough for 300+ crystal figurines).

STAINDEVILS The complete system removes the **seven most critical stains**: ballpoint ink, blood, coffee/tea, fat/cooking oil, grass, ketchup, perspiration and many more including paint. Stain Devils is dermatological tested and environmentally friendly.
