SXM MARINE TRADING

We are SXM Marine Trading the Mega Yacht ~Chandlers conveniently located at Yacht Club Isle de Sol St. Maarten Netherlands Antilles..

We are small personal chandlery dedicated to the needs of the Captains, crew and boats in the Mega Boat Industry.

Smiley and Elona with over 10 years experience in the Mega Yacht Industry with Rose who has over 20yrs experience in the Chandlery products and service, will welcome you and listen to your needs and help with advice and locating the parts you need, on island or abroad.

We can handle, checking you in pre-arrival assistance, the day to day shopping for boat supplies and deliver them directly to you, saving you precious time in your busy day.. We will source and locate parts and special item orders - whatever your boat needs are we are here to assist.

Smiley
Elona

Rose

We also have Albert as part of our team, to help you with all you fire safety servicing needs. Work done to Lloyds, US Coastguard, MCA standards and certifications. Whether in the engine room, galley, garage or on deck Albert is there to assist you

HITACHI – Cordless,

Hitachi's cordless power tools are designed to the highest standards and are rigorously tested for both performance and durability. Hitachi is proud to offer an exclusive 10-year Lithium Ion tool warranty on most HXP Lithium Ion cordless tools.

HITACHI 110 v 60 Hz and 220 v 50Hz.

Sanders /Polishers / Grinders :5”- 8”

Sanding discs / flap wheels / cut-off wheels / grinding discs / polishing mops / bonnets and backing pads, s/s - brass polishing wax

Rotoc mounting pads and discs for burnishing polishing and sanding

The SV13YA 5" variable speed random orbit finishing sander offers best in class sanding performance removing significantly more stock in less time. It is the ideal finish sander for carpenters and woodworkers who are prepping wood, removing scratches, removing dark stain and refinishing furniture.

The SV12SG ¼ Sheet Finishing Sander features an all new design and large soft grip that comfortably fits in the palm of a hand for ease of operation. It sands wood to a finish and can prepare woodwork or sheet metal for painting.

The CJ120V Orbital Jig Saw is a lightweight and compact professional grade saw. It comes with dust collection fittings and has its speed dial near the trigger for one-handed operation.

Named "Best Value" in the September 06 issue of Fine Homebuilding magazine, **the CJ110MV Variable Speed Jig Saw** is equipped with a 5.8 Amp motor, electronic speed control and a 4-stage orbital action. This saw features a front mounted LED light and a powerful dust blower to improve cut-line visibility. Applications include cutting shapes in various wood pieces, cutting metals like mild steel, aluminum and copper, cutting synthetic resin materials like bakelite and vinyl chloride, cutting decorative sheets and thin construction materials as well as cutting stainless steel sheets.

The D13VE 1/2" 0-850 RPM Drill drills into various types of metal, wood, plastic resin, stainless steel and similar materials. This model also tightens and loosens small screws, wood screws, nuts and bolts. Drills 3/8" and 1/2"

Full assortment of Drill bits—HHS / Cobalt / Titanium / Wood

The B13F 10" drill press with laser is ideal for applications where repeatable accuracy for drilling holes is needed. It is compact for bench top use and can be moved out of the way easily. It features an adjustable x-y laser for precision drilling

The P20SBK 3 1/4" Planer is capable of planing, beveling, rebutting, tapering and side planing of a flush door.

The M12SA2 single speed Router is designed for impressively smooth groove cutting, chamfering, window cutting, trimming, shaping and pattern cutting. It is the ideal router for woodworkers and carpenters who demand precision and reliability.

Many More Available Please just ask!!

The **Fein Multi-Master System** is a combination of precision German design and engineering that brings you the most revolutionary power tool in history.

Imagine, a blade that cuts without spinning; a sander that sands without vibrating; a saw that cuts without overcutting. The **Fein Multi-Master** doesn't rotate or use a back and forth motion, it oscillates. Oscillation allows the **Fein Multi-Master** to do extremely fine and delicate work, or be more aggressive, depending on the accessory blade and material you're working with.

The original Dremel Rotary Tool! Ideal for a wide range of do-it-yourself and hobby projects. It offers control and precision thanks to a click-and-set on/off switch. Add to that a comfort grip housing for easy handling and you've got a versatile tool you won't want to put down.

NEW TOOL LINE

We are proudly presenting you Sonic product line. SONIC tool has been developed by experts. Sourced is to the best quality, finish and latest technology. No sacrifices have been made to meet the highest possible quality standard available at this moment. The hand tools are being sold at very competitive prices. The quality-price proportion is to be called excellent.

AIR TOOLS

Air – Grinders Great for tight or angled grinding jobs that an inline die grinder won't reach. Rugged ball bearing motor .Up to 20,000 RPM. Efficient rear exhaust . Lever throttle action for more control .1/4" collet, Air requirement: 3 CFM @ 90 PSI, 1/4" NPT, Tool length: 6-1/8" . Straight and angle.

Compact Air Grinder Kit designed for one-hand operation allows maneuverability in tight spaces. Rear exhaust won't deflect dangerous metal chips at operator. Safety on throttle Max. speed: 22,000 RPM; 1/4" collet; Working pressure: 90 PSI; Air consumption: 18.5 SCFM, 4.5 CFM; Air inlet: 1/4" NPT; 3/8" hose size; Overall dimensions: 2-9/16" D x 6-3/4" L

Air Die grinder and accessories

Grinder cutter. Contoured throttle lever gives control for feather edging to full speed grinding. No load speed: 10,000 RPM. Comes with one 4" aluminum, oxide grinding wheel. Meets ANSI specifications. Air consumption: 6 CFM; Required pressure: 90 PSI; Air inlet: 1/4"-18 NPT; Overall dimensions: 7-1/2" L x 5.0" W x 3-3/4" H

Air –6" Dual Action sander polishers Pad motion resists loading for better finishes and less heat build-up. Required pressure: 90 PSI; 8 CFM @ 90 PSI. Cast aluminum housing. Cushion-grip vinyl handle and housing cover. Speed: 10,000 RPM max; Air inlet: 1/4" NPT; Recommended hose size: 3/8"; Overall length: 8-5/8"

Air impact wrenches. Power off wheel lugs, U-bolts, and transmissions. 250 ft. lbs. max. torque gets the job done fast. Air requirements: 5 CFM @ 90 PSI Reversible action. 5/8" bolt capacity. 7000 RPM. 1/4" NPT air inlet Recommended hose size: 3/8"

Reversible air drill. Convenient fingertip reverse. Long lasting multiple planetary gears with ball bearings. Keyed chuck and key. 3/64" to 3/8" chuck capacity. Max. speed: 1700 RPM; Required air pressure: 90 PSI; Average air consumption: 5 CFM; Air inlet: 1/4"-18 NPT with 20 micron mesh screen; Overall dimensions: 7-5/16" L x 1-11/16" W x 5-3/4" H

High Speed Metal Saw, Cut a wide range of materials, trim and shape light plate, sheet metal and plastics. Zip through sheet metal as thick as 16 gauge. Air consumption: 6 CFM. Cuts rods, pipes and bars with speed and efficiency. 9000 strokes per minute. Lightweight—weighs less than two pounds. Rugged die cast aluminum body with rubber grip

Super Duty Air Hammer with Chisels Professional quality tool, 6-7/8" long for more power and easy grip. Nine high carbon steel chisels. 3000 blows per minute. Includes: Cut chisel, Removal tool, Weld buster, Tapered punch, Ripping chisel, Bushing splitter, Weld rivet cutter, Panel cutter, Long blade cutter; 1/4" air inlet; 90 PSI; 4 CFM; 3/8" hose recommended.

AIR NEEDLE SCALER. 19 hardened steel needles remove weld flux, rust, scale, paint, cement and other residues from irregular surfaces.

SPRAY TOOLS

Professional Automotive HVLP Spray Gun Kit

HVLP (high volume, low pressure) spray guns give you more consistent coverage with less overspray than conventional spray guns. They are better for the environment, and save money in material costs. 20 oz. gravity feed gun with 1.4mm tip for top coats, 1.8mm tip for primers. 4.2 oz. detail gun with 1.0mm tip. Lightweight aluminum construction with stainless steel needles and tips. Heavy duty nylon gravity cups

20ozs Gravity feed spray gun Best mix of paint and air pressure Uses most oil based paints Adjustable fan pattern and volume control Includes cleaning, kit, wrench and barbed inlet fitting

Industrial Spray Gun

Specially designed for that large job. External mix gun gives professional results and a mirror-like finish. Fine spray adjustment. One quart siphon cup. All metal construction with powder coat finish. Reinforced base with cam-lock closure.

Touch Up air spray gun Unique overhead index finger control for right- or left-handed operation. Adjust the spray pattern from round to flat with the self-centering brass air nozzle. Great for detail, stencil, shade, spot and custom painting. Lightweight-just 1 lb. for precise control. 7 oz. siphon feed cup. Fluid inlet: 1/4" NPS; Air inlet: 1/4" NPT

Air brush kit Spray pattern adjusts from 1/4" to 1-1/2" for maximum versatility. Stainless steel construction with glass jars and brass fittings

This heavy duty air riveter will install rivets from 1/8" to 1/4" in seconds!

ENGIN Cleaning Gun The fast easy way to clean dirt, grease, grime, salt, mud, and more! Can be used with a variety of solvents. An essential tool for farmers, truckers, contractors, shops, and garages. Includes 4 foot solvent suction hose with built-in solution strainer.

HAND TOOLS

Adjustable wrenches all sizes up to very large

Bolt Cutter / Wire cutters High-carbon machined steel jaws cut rods, bolts, rivets, bars, and chains. Tubular steel handles with angled grips allow maximum leverage. Jaws are adjustable and replaceable 1/2" Capacity

Utility knives Quick change blade replacement Folding lock backs for safety Finger grip handles for no-slip use Handy pocket clip for large knife.

ALAN KEYS high quality

T-Handle

Hex Key Set

Chisels – metal and wood
Files – rasps and needle files

Set blind, nut, and anchor rivets with one tool!
Use blind rivets for positive fastening and reduced vibration.

Neon Orange Dead Bolt Hammer various sizes

A wide spectrum of socket sizes to choose from. Small to XXXL

Combination spanners Extra long handles give you more leverage than standard open-end wrenches. Perfect for nuts and bolts that just wont budge.

3/8" Crowfoot Flare Nut Wrench Set

PIPE WRENCHES ADJUSTABLE

WRENCHES

BARREL PUMP
Quickly and easily lubricating oil, and liquids from barrels,

Self-priming
dispenses fuel oil, other non-corrosive tanks, and oil drums.

BATTERIES- ODYSSEY

Discover Batteries

Discover Energy is proud to manufacture and present to you the largest line-up of Clean and Green Advanced Dry Cell EV Batteries in the world. Discover Energy and its global partners are creating diverse energy utilization products that promote a harmonious coexistence with the environment. Designed and Engineered for Safe Dependable performance in the most demanding applications, our products are responding to next-generation energy and environmental challenges; help you achieve reduced CO2 and hydrogen gas emissions; deliver improved safety and reliability standards and superior cost performance. They are certified NON-SPILLABLE.

MILITARY GRADE BATTERIES TO THE MARINE INDUSTRY

Maintenance Free - Extended life

625:- Pulse discharge HCA 5 sec 625 Amps HCA@80F 300 Amps CA@ 32F 240Amps

Motorcycle/ATV/ Personal Watercraft: Tired of changing your battery every year? Switch to an *Odyssey battery* and enjoy years of trouble free maintenance. Captains will appreciate the two year storage life in tenders and toys with no maintenance or corrosive acid spills. Use *Odyssey Batteries* when failure is not an option!

925:- Pulse discharge HCA 5sec 925 Amps HCA@80F 625 Amps CA@ 32F 500 Amps

Power sports, ATV's, Motorcycle (Harley Davidson), Marine Gas inboards, Small Block V8's
For 2-st / 4-st outboards / inboards up to 250Hp's

1700:- Pulse discharge HCA 5 sec 1700Amps HCA@80F 1325Amps CA@ 32F 1175 Amps.

Marine Super Heavy Duty & Fleet Applications RV's. Group 27 Replacement
Compares to 4D's deep-cycle main-bank or Start battery for generators

2150:- Pulse discharge HCA 5 sec 2150 Amps HCA@80F 1545 Amps CA@ 32F 1370 Amps

Marine Super Heavy Duty Outboard, Diesel, Trolling Motors
Compares with 8D's deep cycle- house batteries-Starter batteries

Special crane and wire lubricant BEL-RAY GENERAL INDUSTRIAL LUBRICANTS

Since its inception in 1946, and beginning with its first bakery oven lubricant, Bel-Ray's industrial product offering has expanded to include more than 500 products for general industrial use. In addition to many products

which have been developed for specific niche applications, Bel-Ray has high-performance lubricant products for various general industrial applications

Coolants CAT Extended life coolant

Shellzone coolant

FUEL ADDITIVES

Biobor JF is a liquid fuel additive that combats fungus and other microbial life in hydrocarbon fuels, such as diesel and jet fuels, but is also effective in light oils and transmission fluid. Biobor JF eliminates growth in harmful slime-producing fungi that clog filters and pipelines, attack rubber fuel system components and whose waste products aid in the corrosion of metal surfaces. Biobor JF is simple to use and harmless to the wide variety of fuel system parts, top coatings, sealants and elastomers. It does not adversely affect fuel performance in engines. Biobor JF is an effective micro biocide because of its equilibrium solubility in both fuel and water under conditions of fuel storage.

Racor Diesel Biocide is a highly effective additive for use in controlling the growth of bacteria and fungi in No. 2 fuel oil, intermediate fuel oil and No. 6 fuel oil in marine environments. The formula is alcohol free and provides corrosion protection to engine components.

FUEL and OIL FILTERS
Racor--- CAT ---Napa---FRAM
WE DO SPECIAL ORDERS

K&N air filters spray oil, is the only oil specially formulated to work in combination with the cotton fabric in K&N Filtercharger® elements providing a superior air filtration system. When used as directed, it quickly penetrates the filter pleats, where it remains suspended in the cotton fabric. Saturation is maintained until the element is cleaned with K&N Air Filter Cleaner

K&N Air Filter Cleaner is the only cleaner formulated to clean K&N Filter charger elements. The use of any other cleaning solution can void the filter's warranty, and quite possibly could damage the cotton material. K&N Cleaner works to dissolve the dirt build up and old filter oil, and can be washed away with water. Complete instructions on bottle.

NOTE: Do not use on polished or anodized aluminum.

CRC spray products

Boeshield T-9® was developed and licensed by The Boeing Company to fill their need for a superior lubricant/protectant.

The formulation, based on a unique combination of solvents and waxes, is designed to penetrate metal pores and dissolve minor corrosion, then leave a resilient waxy coating that lasts for many months.

Boeshield has been successfully introducing Boeshield T-9® to the tough saltwater marine market for lubricating and protecting all metals. It works well on engines and deck hardware as well as electronics, batteries and wiring connections. It is non-conductive and will not cause short circuits

CorrosionX is the most useful and versatile product of its kind. As one customer stated, "It's a complete service facility in a can." And, it's economical. Users estimate that a single 16-oz. can of CorrosionX will outperform and outlast 8 - 10 cans of the popular household "lubricant/penetrant," making it far more economical to use. A supervisor in a maintenance facility for a major oil company called it an "inventory reducer" because they use it for so many different applications.

CorrosionX Heavy Duty is for **super long-term protection** against serious rust and corrosion assault. For those really tough jobs where you need the ultimate protection against moisture, the answer is new CorrosionX Heavy Duty.

WD40 Known as "the can with thousands of uses," WD-40 protects metal from rust and corrosion, penetrates stuck parts, displaces moisture, and lubricates just about anything. WD-40 is also great when it comes to cleaning grease, grime, and other marks from most surfaces

WD-40 Smart Straw Sprays 2 Ways. Now you can use WD-40 to protect, clean, and lubricate thousands upon thousands of items- without ever losing the straw again!

New Smart Straw features a permanently attached straw that sprays two ways. Simply flip it up for a precision stream and down for a regular spray action.

Permatex is a leading manufacturer of adhesives, sealants, gasket makers, hand cleaners, lubricants, appearance products, and additives for the automotive maintenance, repair, performance, consumer and DIY markets

GREASE GUNS--nipples

- 50 - 15" x 20" PIG® Universal Mat Pads, 7 - 3" x 48" PIG® BLUE Absorbent Socks, 2 - 21" x 17" PIG® Pillows, 1 - 3" x 10' PIG® BLUE Absorbent Sock, 3 - 18" x 30" Polyethylene disposal bags w/ties, 1 - 7" x 10" Stainless Steel Spill Kit Station Sign, 1 - Nitrile gloves, 1 - Safety goggles, 1 - 7" L stick PIG® Multi-Purpose Repair Putty, 1 - 14"H x 5.63"D (2 parts) Wall-mount bracket

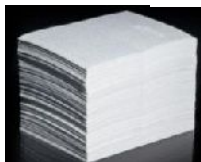

Surround and clean up thick oil spills on water with floating Spaghetti Booms. Their mesh skin and spaghetti strip filler are specially designed to contain attract thick oils, but not water, even in fast currents

and

OIL ABSORBER DIAPERS

Home of Barnacle Buster

THE ENVIRONMENT FIRST: All of TRAC's products, are 100% biodegradable, safe and completely non-toxic

TRAC Ecological Marine Products has long been known for being a non-compromising, environmentally friendly chemical manufacturer. From our full line of safe, non-toxic, and biodegradable descalers, cleaners and degreasers, we have built our reputation on delivering quality products that are both cost effective and 100% environmentally friendly.

Barnacle Buster™ is a safe, non-toxic and biodegradable marine growth remover specifically formulated to meet an industry wide need for fast, safe, cost effective alternatives to mechanical cleaning of seawater cooled equipment. With minimal dismantling required, Barnacle Buster™ can be safely re-circulated through seawater cooling systems, dissolving barnacles, zebra mussels, calcium, rust, lime & all other mineral deposits. Most applications can be completed within 4 hours!

TRAC Descaler™ is a safe, non-toxic, and biodegradable fresh water scale remover. Designed specifically for fresh and brackish water applications, TRAC Descaler™ can safely be used within engines, cooling towers, boilers, or just about any other systems re-circulating water. TRAC Descaler™ will not harm gaskets, seals, plastics or any metals commonly found in water systems.

PSR has been formulated to rid your potable fresh water system of odors & discoloration by attacking the source. Scale builds on low lying, flat sections of your system, allowing bacteria to form. PSR targets these areas and brings new life to your system. Use PSR to remove hard water stains, lime scale, rust, or any other mineral based scales deposits

SEW Clean, THE PROBLEM--Clogs and nasty odors is an unpleasant reality in the marine industry. Seeing a need for an effective cleaner for black water systems we've formulated Sew Clean™. It is the best and most proven method of removing any build up of uric scale in black water systems. Formulated to target uric scale and clear sewage systems from toilet to tank, this proven solution can dissolve clogs causing plumbing to overflow and create nasty odors

T-Grease. As with all of Trac Ecological's product, T-Greaser was formulated with the environment first. This safer, powerful, butyl-free degreaser contains the newest in research and developments in "natural-extract" biodegradable solvents, alkaline builders, emulsifiers, and cleaning boosters. T-Greaser is a Safe, pleasant smelling multi-purpose cleaner. Spray it on and watch the toughest soil dissolve before your eyes. T-Greaser uses a scientific formula breakthrough which couples an emulsion cleaner with organic solvents and gives unequalled power at any dilution. Super concentrated: 2 oz in a gallon (1:64) of water for light duty cleaning. Use 4 oz per quart for everyday cleaning. Adjust your dilution for the job. Because it's contains citric solvents, it leaves a natural clean smell. Contains only natural ingredients, so it's

Port-O-Flush Jr.™ is the smallest flushing unit available on the market today. A powerful tool packaged into a five-gallon bucket, Port-O-Flush Jr.™ provides portability and versatility while still efficiently handling small to medium size engines, heat exchangers, air conditioning & refrigeration systems. Designed with the do-it-yourself boat owner in mind, TRAC's Port-O-Flush Jr.™ is extremely simple to use. Tasks which normally cost you days of down time can now be confidently preformed within an afternoon.

Trac Hand Cleaner™ contains a unique blend of high quality all natural ingredients providing a pleasant, almond scented, solvent free cleanser. Like all of Trac Ecological's products, Trac Hand Cleaner is safe, non-toxic and of course biodegradable

BC7 one of the most preferred degreasers/ bilge cleaner, used by engineers.

BC7 is a bilge cleaner that contains an Emulsifier. This product contains a Surfactant that assists in the proper cleaning of unwanted oils and soils from the engine room areas as well as the bilges. It removes the slight film that other products fail in doing

CHLORINE 13%-available in

SALT PELLETS 40 lb bags

OXALIC ACID 10 lbs / 50lbs

Gray and black water treatments—eco friendly

Head Hunter chemical products and Piranha powder

An all-natural specialized blend of bacterial cultures and nutrients specifically selected for their ability to degrade typical marine and institutional sewage. This synergistic mix of facultative bacteria (both aerobic & anaerobic bacteria) generates a variety of enzymes to help break down starch, fat, oil, grease, protein, and cellulose found in the waste stream. Reduce odors and solids, and improving biological activity in your sewage treatment system the natural way. For peak treatment system performance flush four one ounce bags / 50 gallons of treatment capacity at startup, and add one additional pouch every two weeks.

Available in a 20-count plastic container.
